VIII. Classroom Policies

A. Academic Integrity Policy (e.g., plagiarism or dishonesty)

"Plagiarism can be defined as unintentionally or deliberately using another person's writing or ideas as though they are one's own. Plagiarism includes, but is not limited to, using AI to generate the assignment text, copying another individual's work and taking credit for it, paraphrasing information from a source without proper documentation, and mixing one's own words with those of another author without attribution. In addition, buying a paper or project, or downloading a paper from the Internet, and submitting them as your own is also plagiarism. The penalty for academic dishonesty will bring course expulsion and failure, or even suspension" (Academic Integrity and Syllabus Acknowledgement Form).

All students are expected to submit their 'own' work and not the work of others.

- Students are **NOT** to use AI generated texts in their writing assignments or websites that sell or assemble essays and pass off an assembled essay as the student's own. A student essay that shows any instance of AI generated text will receive a grade of zero, unless the student resubmits a paraphrased version within the assignment deadline.

- Additionally, students are **NOT** to cite websites that sell or assemble essays either. The production of an essay by someone else for the benefit of the student isn't limited to websites. Students are **NOT** to use anyone else's work as their own. Students must produce their own work. Any evidence to the above mentioned will result in a penalty consistent with university policies. **No** 2nd chances.

Serious Plagiarism

If an assignment contains more than a few scattered instances of plagiarism, then the consequences become serious.

If serious plagiarism occurs on the final submission, the student will be notified of this. The student then has *only one day within the deadline period* to paraphrase **ALL** instances of plagiarism, which will equal to a similarity of not more than 14% in the assignment and resubmit it. The highest grade possible from this re-grade will be 59%. ***If the student does not resubmit the assignment, or does not sufficiently correct it, or the assignment is a completely different draft than what was previously submitted then the assignment will***

receive a final mark of zero. *Please refer to the course syllabus acknowledgement form for more details of the academic integrity policy.*

- Procedure for re-submittal:
  - Once an assignment that is in excess of 15% has been identified, the student will be contacted. The email will be accompanied with supporting evidence [e.g. pictures of final submittal with similarity rate; pictures of plagiarism checker usage with similarity rates, OR absence of usage of plagiarism checker link]
  - The instructor will extend the deadline of the plagiarism checker links for 24 hours so the student can continually check his/her progress. The similarity rate will be less than 14%
  - Once the task is complete, the student will e-mail his/her copy to the instructor for regrade. The instructor will manually upload this document onto final draft link on the LMS/Moodle.

B. Attendance Policy

Please, adhere to the following guidelines:

1. The University attendance policy will be strictly followed. In this course, the absence of 12 hours (Sunday, Tuesday, Thursday course) results in a Denied Notice (DN); 8 hours (Monday/Wednesday course) results in a Denied Notice (DN).
2. Students will be marked absent after the 10-minute mark from when class begins.
3. **Please Note: IT IS THE SOLE RESPONSIBILITY OF THE STUDENT TO KEEP SATISFYING their level of attendance. Otherwise, a "DN" grade will be granted automatically during any time in the semester without any notice from the e-register system.**
